2-10000 SERIES

PILOT CAR
ELECTRIC VEHICLES

WE ARE
CONTINUING
ON OUR PATH
**FOR A
CLEANER
FUTURE**

Unfortunately, due to the widespread use of fossil fuels, the balance of nature is now deteriorating.

Global climate change endangers the life of living beings. That's why we're doing our part to ensure that future generations will have a cleaner world. As an important part of our business start-up, we produce environmentally friendly vehicles with "0" emissions that are 100% powered by electric motors.

For a world worth living in...

It makes us proud to produce vehicles that are trend-setting with environmentally friendly technologies. As PILOT CAR, we take environmental protection seriously and continue to produce technologies that benefit society.

This is our responsibility... We are the future.

POWER MEETS WITH AESTHETICS

THE MOST POWERFUL, MOST PRACTICAL,
MOST CHARISMATIC ...

L7e-CU - STREET LEGAL

P-1000 SERIES

HIGH PERFORMANCE

With its high-torque electric motor, this is the ideal vehicle for industrial use and tough terrain conditions.

HIGH EQUIPMENT

With its functional interior design, it offers the driver a wide comfort zone, meeting all your needs with its in-cab equipment features.

HIGH QUALITY

Manufactured with quality materials and perfect workmanship, the P-1000 promises its driver a comfortable drive.

HIGH SECURITY

It is designed for the best protection of the cab in the event of a collision with its energy-absorbing, lightweight and robust body construction.

P-10000

USAGE AREAS SERIES

With its wide range of uses in all areas of business life, the P-1000 is the ultimate assistant you need in your business with its "0" carbon footprint, quiet operation, low operating costs and energy efficiency.

INDUSTRIAL AREAS

With its optional design, the P-1000 will be your greatest assistant in industrial areas. It will provide easy service in many areas such as industrial plants, shipyards, airports, postal and courier services with its dimensions, load-bearing capacity and various bed options.

TOURISM

You have a unique assistant in tourist areas like hotels, resorts and camping areas. You will feel the difference by its comfortable use and structure that is not afraid of load.

DELIVERY AND TRANSPORTATION

Its compact structure, compatible with city traffic, its superior climbing and maneuverability make it advantageous in all conditions as it can easily get into narrow streets.

AGRICULTURAL AREAS

PILOT CAR P-1000 series with its high-performance characteristics does not cause any trouble in flat or uneven terrain and does not tire you. It facilitates your work in warehouses, farmhouses, gardens, greenhouses and farmland.

PUBLIC SERVICE

The P-1000 leads the way in many public areas such as community administration services, hospitals, campuses, parks, green spaces and waste collection.

CLEANING AND WASTE COLLECTION

With its compact structure and superior maneuverability, it can easily enter places where large waste collection vehicles cannot enter, narrow streets and avenues, and areas that are closed to traffic.

FREEDOM WITHOUT LIMITS
OPTIONAL DESIGN
You decide how you want to use it!

P-1000 CHASSIS

SUITABLE FOR EVERY FIELD

The P-1000 was built with innovative ideas and perfectionist technology. With its chassis version, the P-1000 offers the possibility of many body types according to the variable conditions and requirements to use in business life.

"0" EMISSION

It's both economical and environmentally friendly. We fulfill our responsibility to the world in which we live in order to protect our future with "0" emissions.

100% ELECTRIC

With its 100% electric motor, the P-1000 shows its strength and durability.

DESIGN FULFILLS THE LINES OF THE FUTURE

With its electrically powered motor, the P-1000 can be used comfortably in all ground and weather conditions. It has been tested and manufactured to carry your cargo smoothly in all conditions.

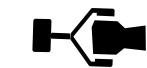

SAFETY FIRST

The P-1000 series brought a new style to electric vehicles in their category. It was developed for the toughest operating conditions with the principle of unsurpassed durability and maximum safety.

Optional Design

Beyond being "best in class", P-1000 is also your best business partner. With the chassis version, you simply decide what to do.

TOWING CAPACITY

With its strong and durable chassis structure, the state-of-the-art electric motor with high torque and a trailer load of up to 2000 kg, the P-1000 can overcome all tough conditions.

COMPACT AND FUNCTIONAL

P-1000 is on duty in all areas that you need. Working indoor, outdoor or limited space areas becomes easier and less tiring thanks to its modular structure and compact design.

MODULAR

With its high performance and durability, the unique P-1000 adapts easily to your work.

RANGE

Maximum range 220 km

LITHIUM - ION

With the lithium-ion option, the P-1000 offers you a greater range.

LOW CHARGING COST

Thanks to the electric motor, charging costs are not a problem.

HIGH MANEUVERABILITY

With its compact dimensions and a turning radius of 4.6 m, it offers high maneuverability in the tightest of spaces.

25%

SLOPE

** (According to WLTP, with 26 kWh battery)*

PERFORMANCE

With its 100% electric motor, high torque and robust steel chassis, performance is its job.

AIR CONDITIONING

With its air conditioning system, the P-1000 significantly increases the driver's interior comfort and offers an optimal working environment under the toughest climatic conditions.

ELECTRIC POWERED STEERING SYSTEM

With its speed-adaptive electric powered steering system, P-1000 offers a safe drive and increases maneuverability in the most comfortable way.

MULTIMEDIA ENTERTAINMENT SYSTEM

A product of young and dynamic engineering, the P-1000 is designed to enhance your enjoyment of driving with its AM/FM Bluetooth-USB entertainment system and functional interior design.

NEVER AFRAID OF THE LOAD

THE MOST POWERFUL, MOST PRACTICAL, MOST CHARISMATIC ...

OPEN CARGO BOX **P-1000**

YOUR INDISPENSABLE ASSISTANT

The P-1000 shows its strength and durability with its 100% electric motor. It doesn't compromise load capacity, offers a safer drive and better handling.

QUIET

With its 100% electric motor and "0" carbon emissions, it causes no environmental and noise pollution.

LOAD CAPACITY

With a load capacity up to 1000 kg, it can easily handle daily tasks.

FEEL THE POWER

With its charismatic and confident demeanor, the P-1000 will be your indispensable assistant in business life.

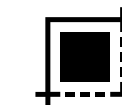

With its load capacity and practical loading features, the P-1000 offers ease of use in all areas of life.

With its 100% electric motor and superior handling, the P-1000 is the leader of its class. Wherever the roads take you, you will be in full control.

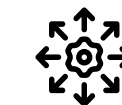

We are the Future...

The lines of the future met creative engineering. The stylish P-1000 was designed in every detail to show strength and durability.

DIMENSIONS

With its compact dimensions, loading & unloading organizations will no longer be a problem.

FUNCTIONAL

Its high-performance electric motor and functional structure equipped with advanced technology allow you to successfully carry out operational tasks.

AGILE

It has been designed according to the needs based on the experience of professionals.

AGILE

With an electric motor that generates high torque and its dynamic structure, it does its job perfectly in various terrain structures.

COLOR OPTIONS

Reflect your style to your work with color options available in white, red, yellow and gray..

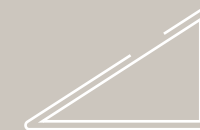

CAB

With 3-point seat belt, driver's safety belt sensor, immobilizer and emergency stop switch in the cab, your safety will be superior.

CHASSIS

Thanks to its heavy duty steel chassis for motor vehicles, it offers high performance in most difficult tasks.

25%
SLOPE

STRONG

With a trailer load of 2000 kg and a load capacity of up to 1000 kg, the P-1000 can easily handle the most difficult tasks. Thanks to the practical housing functions, loading and unloading is much easier.

THE FASTEST
IN ITS CLASS
THE FASTEST, MOST DYNAMIC, MOST RELIABLE...

P-1000 CARGO

JUST IN TIME

Your experienced new colleague is right outside your door, just in time.

SPEED

With a speed of 50 km/h and the practical loading and unloading functions, it saves time.

LOADING VOLUME

With a loading capacity of up to 2.5 m³, it will be indispensable for the logistics industry.

DYNAMIC DRIVE

Prepare for a quiet and dynamic drive with 100% electric motor!

A Revolution in Transport

The P-1000 is ideal for all types of logistic work with its safe structure that makes loading and unloading easier, a loading volume of 2,5 m³ and high maneuverability.

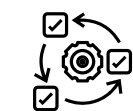

Designed to deliver the cargo as soon as possible.

With its "0" emission structure and quiet and comfortable driving features, your work in city traffic is much more easier.

CARGO BOX

To facilitate the loading and unloading of shipments, it offers ergonomic solutions with its double-wing door at the rear and a sliding door on the side.

HIGH MANEUVERABILITY

The P-1000 is there in all areas that you need. With a turning radius of 4.6 m, your work is easier thanks to the modular structure and compact design in indoor or outdoor work areas as well as in limited work areas.

THE FASTEST,
MOST DYNAMIC,
MOST RELIABLE

Driving the P-1000 is smooth and comfortable in all situations.

AT THE TOP OF ITS CLASS

It's your ideal colleague with its impressive short and long haul performance, high torque motor and 7x lower energy costs than fossil fuel vehicles.

25%
SLOPE

L7e-CU CATEGORY

With the L7e-CU certificate, you will encounter more urban traffic with the P-1000, which has been approved for traffic.

HIGH TORQUE

Get ready for a smooth and dynamic drive with 100% electric motor.

COMFORT DRIVE

With its suspension system, the P-1000 offers better handling and comfort driving experience to its driver.

DYNAMIC

It is the fastest in its class with its high load capacity, ability to easily navigate narrow streets, excellent maneuverability and dynamic structure.

PRACTICAL, FUNCTIONAL, ERGONOMIC

MESH CARGO BOX **P-1000**

YOUR GREATEST ASSISTANT

Distinguished by its functionality and ease of use, the P-1000 is there for you in all conditions and with every load.

CONVENIENT LOADING & UNLOADING

With easy-to-open independent cage doors on 3 sides, loading and unloading is now much more convenient.

LOADING VOLUME

With a loading capacity of up to 2.5 m³, the P-1000 handles not only high-volume cargo, but also combines reliability and stunning performance.

ROBUST AND STRONG

With its durable chassis design and high performance, it handles demanding cargo carrying tasks smoothly, and offers a comfortable drive to its driver.

Increased Transport Performance

The P-1000 is designed to boost your business performance and optimize your transport processes.

Picking the P-1000 for your work, you'll discover the perfect combination of reliability and performance.

Setting off with the P-1000 not only boosts your performance, but also turns your transport experience into a joyful adventure.

MESH STYLE SIDED STEEL CARGO BOX

Its functional design ensures smooth loading and unloading, while the structure of the mesh style cargo box helps you to keep the cargo transport process under control.

ASTONISHING MANEUVERABILITY

With a turning radius of 4.6 m, the P-1000 offers a much more practical and more dynamic performance in a variety of working environments.

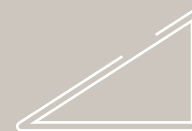

HIGH LOAD CAPACITY

With its loading volume, the P-1000 responds to any loading requirement

SUPERIOR TECHNOLOGY

The P-1000's technological capabilities meet all the challenges you may face.

25%
SLOPE

COMFORT AND SAFETY

No snowy roads, rainy days or muddy terrain can stop you thanks to its reliability and durability.

ENHANCED SUSPENSION AND DRIVER-CENTERED IN-CAB SPACE

The P-1000 offers smart and seamless flexibility around your needs.

THE CITY IS
CLEANER WITH US

THE MOST ENVIRONMENTALLY FRIENDLY,
CLEANEST, QUIETEST...

P-1000 WASTE TIPPER

SUITABLE FOR NEEDS

Narrow streets and inaccessible places will not be a problem for P-1000. Cleaning is its only duty.

HYDRAULIC DAMPER SYSTEM

The 90° opening hydraulic tipper system makes it much easier to empty the collected waste into containers.

TIPPING DEVICE FOR WASTE CONTAINERS

Driving into narrow streets which large waste collection vehicles cannot enter, is pretty easy for P-1000. In addition, with container tipping device city will be cleaner in a very short time.

ITS JOB IS ONLY TO CLEAN

It's designed to keep the air we breathe clean, because it is 100% electric and "0" emission. In addition, you will not be exposed to any noise.

Always on Duty...

The P-1000 waste collection vehicle has been designed and developed to meet the needs of modern urban life and has been manufactured for a wide variety of fields from public services to private sector investments.

WASTE COLLECTION VOLUME

It will be the city's cleaning expert with a 2m³ fixed waste collection volume and the practical technological equipment that will facilitate garbage collection.

BATTERY

P-1000 is offered with lithium-ion battery package for long life service.

A Cleaner Future

The garbage collector P-1000 drives easily into the narrow streets of the city or anywhere that large garbage collection vehicles cannot enter. It can dump the garbage it collects into the receptacle of a larger garbage truck or into garbage collection areas.

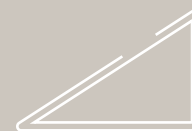

ALL OVER THE CITY

The P-1000 is the product of a young and dynamic engineering and with its design that makes it easy to load and unload waste, it is widely used throughout the city.

SUITABLE FOR THE TEXTURE OF THE CITY

With its quiet and compact structure for urban cleaning work, it does its job without disturbing anyone.

25%
SLOPE

STRONG LIGHTING

The P-1000 illuminates the darkness of the night with halogen high beam headlights, LED daylights and taillights.

REAR VIEW CAMERA

Thanks to its rear view camera, it makes maneuvering easier in confined spaces.

REGENERATIVE BRAKE

As soon as you take your foot off the accelerator, the P-1000 charges your batteries and slows down comfortably thanks to the regenerative brake system.

PRACTICAL

Make your work easier with PILOT CAR technology.

When you get behind the wheel of the P-1000, it's easy to decide where to clean. The rest is its job.
